

SCHOOL OF IPR AND COMMERCIAL LAWS

CALL FOR INTERNS: JULY MONTH

ABOUT SCHOOL OF IPR AND COMMERCIAL LAWS:

The School of IPR and Commercial laws is an autonomous research school of the Research Board of All India Legal Forum. It is an initiative to promote interdisciplinary research in corporate law and related fields like competition law, policymaking, conflict management, banking and Intellectual Property Rights. The main objective of the school is to provide holistic advice on all issues relating to corporate affairs and Intellectual Property Rights, and impacting on corporate functioning, including the legislative, policy, structural, governance, regulation and interdisciplinary/ coordination issues, keeping in view the current developments and the probable future scenarios.

OBJECTIVES:

The main objectives of the school of IPR and Commercial Laws are as follows:

- To set up and advance connections internationally and nationally with similar bodies, and provide a focal point in India for researchers in corporate law.
- To attempt and encourage research on corporate laws and entice students of the highest potential to provide opportunities for their engagement in corporate law research projects.
- To establish close relations with top associations and members of the legal profession associated with corporate law and securities regulation.
- To research Corporate Laws and allied laws of foreign countries and to identify training and development needs of the officials of the legal, regulatory other agencies associated with the implementation of corporate laws, rules and guidelines.
- To provide a forum for critical research on the interplay of contemporary issues in corporate law, both from an academic and industry perspective.
- To provide insight into how Intellectual Property Laws are essential.

- To provide a forum for discussion and debate in the field of Intellectual Property Laws to students and academicians, and to undertake academic research and study to suggest improvements in various laws, bills and government policies.
- To provide high quality and exclusive legal research both doctrinal and empirical by nature in the field of IPR and Commercial Laws.
